

Taking care of our world - Thank you James!

This is James and he did a pretty amazing thing!

James is really dedicated to taking care of our planet. He noticed that his school had lots of stationery items that they didn't need anymore. So James made a decision to take them home to make sure they weren't wasted.

James' family thought about what they could do because there was SO much stationery, they knew they would never be able to use it all! So they phoned us to see if we would like it, and we said YES PLEASE!

James sharpened all the pencils for us. His family put the waste from sharpening the pencils into the compost.

We asked if James could please talk with the children himself about what he did and why he did it. So James came to visit Kinder on Tuesday to deliver the supplies and spend some time in the Kangas session.

The children made James a card to show our appreciation. James promised he would come and visit us again soon.

Stories like this are very inspirational for us. They remind us that the little things we do together all add up to make a big difference. (And that we are never too young to show leadership!)
